

# Philips - Switch On Settings

In this chapter, you can find information about all professional settings that can be changed. To start you have to open the [Professional Settings] menu. Using the guest remote control, press the following keys sequentially: “3 1 9 7 5 3 mute” or “mute left right up down ok”.

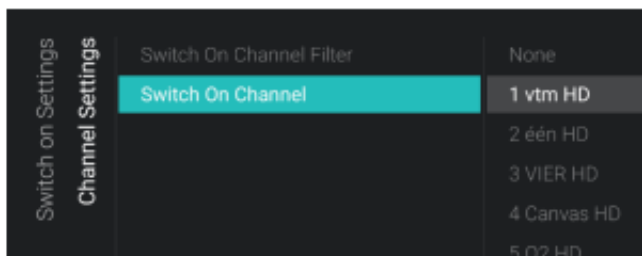

- Navigate to the [Switch on Settings] menu, you will see the screen on the left
- In this menu you will be able to set all Switch on settings, these are the menu items that a guest can change, the values you set here are the settings applied when the guest wakes up the TV

- Navigate to the [Channel Settings] [Switch On Channel Filter] menu
- You will see a list of channel filters, your selection will be the default selected channel filter when opening the channel list
- This list also contains the theme's
- The channel list you have selected will also be shown in the recommended screen in the dashboard

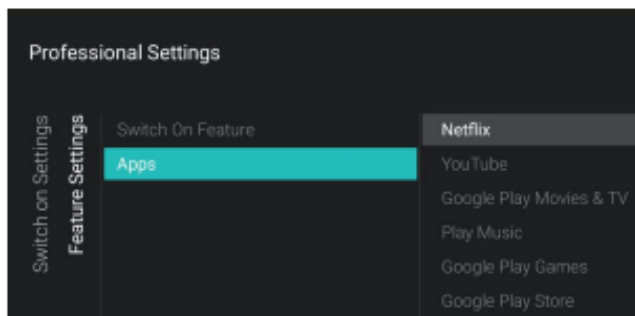

*Note: The list you see in the screenshot is depending on the installed content*

- Navigate to the [Channel Settings] [Switch On Channel] menu
- You will see a list of channels followed by the external sources
- Note: The list you see in the screenshot is depending on the installed channels*
- Select the channel or source you would like to set as Switch On Channel

- Navigate to the **[Feature Settings] [Switch On Feature]** menu
  - You will see below items:
    - **[None]**: The dashboard or apps will NOT be opened when starting up the TV
    - **[Dashboard]**: The dashboard will be opened when starting up the TV
    - **[SmartInfo]**: SmartInfo will be opened when starting up the TV
    - **[Apps]**: An app will be opened when starting up the TV
    - **[MyChoice]**: MyChoice PIN code screen will be shown when starting up the TV
    - **[Google Cast]**: When Google Cast is selected, the Chromecast application will be launched as startup feature
- Note: SmartInfo and MyChoice will only be visible in this list when they are enabled in [Features] menu*

- Navigate to the **[Feature Settings] [Apps]** menu
  - You will see a list of the installed apps and you can select an app you want to show as switch on application
- Note: This menu is only accessible when [Apps] is selected in the [Switch On Feature] menu. The content of [Apps] depends on the installed apps*
